

# Swiss Limbs

Mobility now.

We started out making legs, now we  
build hospitals.

## WHO WE ARE

**SwissLimbs** is a non-profit organisation based in Switzerland. It provides ortho-prosthetic solutions to professionals and organisations with the aim of improving the quality of life of people with disabilities. It carries out development projects mainly in Africa and the Middle East.

**SwissLimbs** is committed to the development and transfer of new skills to local orthopedic technicians. Our goal is to adapt new technologies and skills for the benefit of orthopedic technicians and health systems in developing countries, resulting in long-term sustainable social benefits.

In addition to traditional technologies, **SwissLimbs** promotes the innovative Monolimb technology, represented by a **cost-effective leg prosthesis**, and a **myoelectric hand**, which are easily adaptable and have the best cost-performance ratio in their field. This technology combines high physical mobility with innovative design, a fast and simple manufacturing process and durable, lightweight and easily available materials.

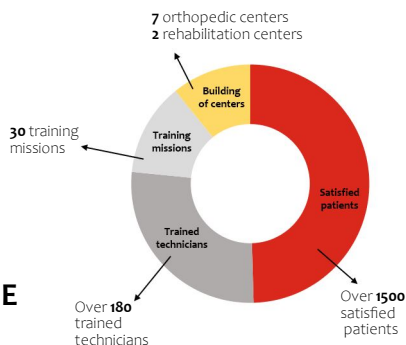

## WHERE WE ARE ACTIVE

UGANDA

TANZANIA

MOZAMBIQUE

## OUR ACTIVITIES

### SUPPLY AND DEVELOPMENT OF ORTHO-PROSTHETIC PROCESSES, PRODUCTS, MATERIALS AND MACHINERY

SwissLimbs assists amputees and disabled people by providing affordable orthopedic equipment and materials designed specifically for developing countries.

### CREATION AND REHABILITATION OF ORTHO-PROSTHETIC WORKSHOPS

SwissLimbs creates or rehabilitates ortho-prosthetic workshops, which are then managed by local professionals and technicians, who also develop SwissLimbs' new low-cost technologies.

### SPECIALIZED TRAINING OF LOCAL TECHNICIANS

SwissLimbs has a pool of specialized trainers at home and abroad, who teach technicians in the most innovative low-cost ortho-prosthetic technologists.
